

TECHNICAL SHEET

- **WIDTH: 1 400 mm**
- **DEPTH: 300 mm**
- **HEIGHT: 2 200 mm**
- **WEIGHT with material: 45 kg**
- **Water volume of the lower tank (200 mm): 60 liters**
- **Water volume of the higher tank (30 mm): 3 liters**
- **Dimension of the technical column: 2 400 x 300 x 300 mm**
- **Electrical power: 95 W**
- **Length of power supply cable: 1 500 mm**

EQUIPMENT and DESIGN

- **S**pecific pump for hydraulic system
Power 85 W, weight 3,4 kg, flow rate 5 000 l/h, thermal protection device, stainless steel components, 3-years warranty + 2-years extension
- **W**arm white (3 000 K) LED lighting on aluminium rail, with opal diffuser (92 cm), totally coated with resin IP67 + waterproof transformer IP67 (power 30 W), 1-year warranty
- **UV** treatment
Power 14W, weight 1,36 kg, including operating tell-tale, 2-years warranty
- **A**luminium one-piece welded design, powder coating with resin primer, black colored
White design on the technical column
- **A**nti-electrolysis system
- **PVC** hydraulic system with anti-vibration joints, complete disassembly

OPTIONS

- **D**ecorative stones on grids, each side of the watering flow
- **M**odification of the sound level
- **LED** lighting with RGB colors
- **C**olors available for aluminium structure (see RAL range)
- **H**ome automation with SOMFY personalized systems
- **A**adjustable feet (prepared in our workshop)
